

River Tweed Trout & Grayling Initiative – Fly Life Monitoring

Please fill in the form for each river or stream you have fished this year. Report what you feel capable of reporting on. If it is for one month and just “fly in general” it will still be vital data. The simplest data is still valuable.

Please write your name: _____ Angler / Keeper / Owner / Club official (circle as appropriate)

Could we have your telephone number in case we have to confer with you?: _____

And your address: _____ Post Code: _____

Where in the river, and if possible the stretch/location you are referring to _____

HOW GOOD WAS THE FLY HATCHES IN EACH MONTH? To produce comparable data, please write one of the following six codes in a box below for each month and species you recall/recorded and feel capable of responding to: **GHF** = Good Hatches Frequently; **GHI** = Good Hatches Infrequently; **SHF** = Sparse Hatches Frequently; **SHI** = Sparse Hatches Infrequently; **VLF** = Very Little Flylife; **ABS** = Absent.

Month	How Many Visits	Number of rising fish?	Fly in general	Small Upwings	Olives	Blue Winged Olives	Iron Blues	March Brown	Olive Upright	Yellow May	The Mayfly (<i>danica</i>)	Stonefly small	Stonefly large	Sedge small	Sedge medium	Sedge large	Grannom
